All questions are of equal value. Answer all questions. No marks are subtracted for wrong answers. Scrap paper is provided for your rough work.

Record all answers on the computer score sheet provided. **USE PENCIL ONLY! Mark only one answer for each question!** Select the answer, after appropriate rounding, that is closest to yours.

A formula sheet is provided for your use; you may **not** use your own formula sheet or any other materials or notes. Calculators of any type are allowed, but not devices that store text or that can communicate with other such devices.

Be sure your name and student number are printed on the score sheet and the student number correctly coded in the box at the top right-hand side of the sheet.

This is paper **C**. Questions are numbered 81 to 98. Mark the correct answers in rows 81-98 of the **third** column of the accompanying IBM sheet in pencil. Also write "Paper **C**" next to your name on the IBM sheet.
